INDEX.

(The page numbers of original articles appear in black face type. Original articles are indexed under each author's name, and under one or more subject heads of the title; abstracted articles are less fully cross-indexed and under subject only; all book reviews are indexed singly under the head of "Reviews," according to the author's name.)

A

Abdominal disease simulating coronary occlusion, **219**
surgical, spontaneous heart rupture simulating, **347**
Abrams, M. I., and Gilligan, D. R., carbohydrate metabolism in human hypothyroidism induced by total ablation of thyroid gland, II, **796**
and Stern, *see* Gilligan, D. R., **790**
Adams, W., see Gordon, W., **491**
Adolescents and their diseases, blood sedimentation test in medical examination of, **450**
Adrenal, sympathogonioma of, **372**
Age-incidence relations in diabetes mellitus, **116**
Agranulocytic angina, amidopyrin and allied drugs relationship to etiology of, **482**
differential diagnosis of, from acute leukemia, **604**
Agranulocytosis, syndrome of acute, as complication of kala-azar, **524**
Albuminuria, persistent functional; 58 cases thyroid and calcium medication, **242**
Allinson, M. J. C., Henstell, H. H., and Himwich, H. E., glycin influence on creatinuria in peripheral neuritis, **560**
Alpha-dinitrophenol (1–2–4) toxic reactions following clinical use of, 736
Amidopyrin and allied drugs relationship to etiology of agranulocytic angina, **482**
Amino-acid therapy, creatin-creatinin metabolism in myopathies before and after, **706**
Anaphylaxis, prophylaxis of, in sensitized guinea-pig, 142
Andes, J. E., and Tripoli, C. J., *see* Beard, H. H., **706**
Anemia, pernicious, surgical aspects of, with reference to treatment, **60**
splenic, and subleukemic splenic reticulo-endotheliosis, **761**
Angina pectoris patients, standardized exercise tolerance test for, **646**
Antidotes in cyanid poisoning, **767**
Antisyphilitic treatment and toxic cirrhosis, relationship between, **685**
Antopol, W., Heilbrunn, J., and Tuchman, L., heart enlargement due to abnormal glycogen storage; in von Gierke's disease, **354**
Anuria, fatal, following blood transfusions; inadequacy of tests, **555**
Aortic stenosis, clinical studies on, **1**
of inflammatory origin with differential study of acquired or congenital origin of bicuspid aortic valve, **506**
Aring, C. D., *see* Solomon, P., **805**
Arterial hypertension, therapeutic efficacy of bismuth subnitrate in, **21**
Arteriolar essential hypertension and active tuberculosis, **712**
Arteriovenous fistula of renal vessels, **399**
Arthritis, anabolic nutrition, health, **93**
chronic, iontophoresis of acetyl-beta-methylcholin chlorid in, **32**
Auricular fibrillation study following goiter operations, **382**
Auscultation limitations for diagnosis and study of tuberculous pulmonary cavities, **697**
Autohemagglutination, **487**
Ayman, D., arteriolar essential hypertension and active tuberculosis, **712**

B

Bacillus welchii toxin in rabbits, intratibial injections of, **339**
Baldridge, C. W., relationship between antisyphilitic treatment and toxic cirrhosis, **685**
see DeGowin, E. L., **555**
Banti's disease, chronic congestive splenomegaly and relation to, **745**
Banyai, A. L., and Jurgens, G. H., insulin therapy in tuberculosis, **76**
Barbituric acid derivatives, indications and dangers of use of, 729
Barker, P. S., Wilson, F. N., and Coller, F. A., abdominal disease simulating coronary occlusion, **219**
Basal ganglia of adult human brain, reconstruction of, 871
Bayley, R. H., frequency and significance of bundle-branch block, **236**
Beard, H. H., Tripoli, C. J., and Andes, J. E., creatin-creatinin metabolism in myopathies before and after amino-acid therapy, **706**
Bethell, F. H., reticulocyte production and bone marrow involvement relationship in pernicious anemia, **476**
Bichlorid of mercury poisoning, treatment of; 46 cases, **375**

Bicuspid aortic valve, aortic stenosis of inflammatory origin with differential study of acquired or congenital origin of, **506**
Bile pigment and hemoglobin regeneration; in chronic hypochromic anemia, **206**
Bishop, L. F., Bishop, L. F., Jr., and Trubek, M., aortic stenosis of inflammatory origin with differential study of acquired or congenital origin of bicuspid aortic valve, **506**
Bishop, L. F., Jr., and Trubek, M., *see* Bishop, L. F., **506**
Bismuth subnitrate, in arterial hypertension, therapeutic efficacy of, **21**
Blood clots, syneresis of; blood platelet rôle, 143
peripheral, in lobar pneumonia, cytology of myelocytes in, **332**
sedimentation test in medical examination of adolescents, **450**
transfusions, fatal anuria following; inadequacy of tests, **555**
Boas, E. P., and Landauer, W., elevated metabolism effect on Frizzle fowl heart, II, **359**
Boggs, R., spontaneous hemophilia; report of 6 cases in brothers, **811**
Bone marrow in idiopathic thrombopenic purpura, **37**
involvement and reticulocyte production relationship in pernicious anemia, **476**
Brain, adult human, reconstruction of basal ganglia of, 871
Briant, W. W., Jr., King, C. G., and Graham, L., *see* Menten, M. L., **260**
Brock, S., O'Sullivan, M., and Young, D., non-sedative drug effect in migraine, **253**
Bruen, C., bismuth subnitrate in arterial hypertension, therapeutic efficacy of, **21**
Bundle-branch block, atypical, with favorable prognosis, **231**
right, frequency and significance of, **236**
Burden, N. J., persistent functional albuminuria; 58 cases thyroid and calcium medication, **242**
